SUMMARY

Dedicated and customer-focused professional seeking a role in the BPO industry, leveraging strong communication skills, problem-solving abilities, and a commitment to delivering excellent customer service. Additionally, proficient in front-end and back-end development, with knowledge of React.js, Express.js, MongoDB, and MERN stack development. Eager to contribute to a dynamic team, enhance customer satisfaction, and support business objectives through technical efficiency, professionalism, and innovative problem-solving."

WORK EXPERIENCE

Fresher

PROJECTS

Inventory Management System | MERN Stack

Built a full-stack system with real-time tracking, JWT authentication, and automated reporting.
Optimized MongoDB queries, reducing data retrieval time by 30%.

Task Manager | MERN Stack

Implemented user authentication using bcrypt and JWT, ensuring secure access.
Enabled CRUD operations for task management with user authentication and authorization.

Portfolio Website | React, Node.js, Express

Implemented a dynamic UI, contact form with backend API, and SEO optimization for better visibility.

CERTIFICATIONS & ACHIEVEMENTS

NATIONAL CADET CORPS (NCC) TRAINING CERTIFICATION | LEADERSHIP & TEAMWORK | 2019
